An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 2, line 5, delete "the" before "product of rotational frequency w", and insert instead --a--.

In claim 3, line 7, delete "the" before "product of the square root of (R/r)", and insert instead --a--.

In claim 11, line 1, delete "1" after "claim", and insert instead --10--.

In claim 13, line 5, insert --a-- before "solution containing pattern transfer material".

Cancel claims 19 and 21.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard V. Burgujian on April 14, 2004.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination neither discloses nor makes obvious the instant invention including decreasing a rotational frequency w for a substrate so that a liquid dropped from a dropping section on an in-process substrate stays at a dropped position in accordance with relative movement of said dropping section from an inner periphery of said in-process substrate toward an outer periphery. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.
